We Build Happiness for you

## BOLD 300MG

Boldenone Undecylenate 300mg

## PRODUCT INTRODUCTION

**3-TREN 200** is a blend of 3 trenbolone esters: acetate, enanthate and hexahydrobenzylcarbonate. One vial – three forms of the most aggressive drug ever manufactured. It is highly valued for its ability to increase muscle hardness, definition, and raw strength, without unwanted water retention and fat mass gains.

-

## HOW TO USE BOLD 300MG

The recommended dosage for male beginners is 200mg per week and female bodybuilders are recommended to take maximum 50mg per week for 8 to 10 weeks. Experienced bodybuilders usually manage to take 500mg per week depending on their tolerance levels.

---

## HOW BOLD 300MG WORKS

Experience significant muscle gains and improved muscle definition with Bold Injection. Boldenone enhances nitrogen retention and protein synthesis in the muscles, leading to increased muscle mass and size over time. Say goodbye to plateaus and hello to continuous muscle growth.
