Tadarise Tablet should be taken as directed by your doctor. Swallow it as a whole with a glass of water. You should try to consume this medicine at the fixed time as advised by your doctor for optimal results.

---

## HOW EXTRA SUPER TADARISE WORKS

Extra Super Tadarise works by boosting levels and delaying the break-down of serotonin, a chemical found in the central nervous system, keeping the hormone level higher, which helps to slow down ejaculation. Dapoxetine was originally developed to treat depression but its affect was short lasting. As part of the testing it was found to help with premature ejaculation and is now used primarily for that purpose.
