HEXONIS MOUTH WASH

Chlorhexidine Gluconate B.P.
0.2%w/v Mouth Wash

PRODUCT INTRODUCTION

Hexonis Mouth Wash is used in the treatment of inflammation of gums. It kills the harmful microorganisms in the oral cavity that cause swollen gums, and tartar, bad odor from the mouth. This way it cleans the affected area and speeds up healing.

USES OF HEXONIS MOUTH WASH

- Treatment of Mouth infection**

BENEFITS OF HEXONIS MOUTH WASH

Whenever there is an overgrowth of microorganisms in our mouth, that are otherwise normally present, it can lead to unpleasant symptoms suggestive of mouth infection. These symptoms include bad breath, swollen gums, unpleasant taste changes, sensitivity of teeth to hot or cold food/liquid etc.

SIDE EFFECTS OF HEXONIS MOUTH WASH

- Taste change
 - Staining of teeth
 - Hard Dental Plaque
-

HOW TO USE HEXONIS MOUTH WASH

Check the label before use. Take the mouthwash in the quantity as advised by your doctor and put it in your mouth. Swish for 30 seconds to 1 minute and spit it. Do not swallow. Avoid eating, drinking, or smoking for at least 30 minutes after rinsing.
