Benzydamine Hydrochloride B.P.
0.15% w/v Mouth Wash

PRODUCT INTRODUCTION

Hydrobenz Mouth Wash Honey is a pain relieving medicine. It is used to relieve pain, discomfort, and inflammation of the mouth, gums, and throat. It provides relief from pain and swelling and aids in speeding up the healing process.

USES OF HYDROBENZ MOUTH WASH

- Pain relief**
-

BENEFITS OF HYDROBENZ MOUTH WASH

Hydrobenz Mouth Wash Honey blocks the release of those chemicals that are responsible for pain sensation and inflammation. It forms a coating over the sores and therefore, provides relief from pain, discomfort and symptoms of inflammation such as redness, swelling or burning sensation due to mouth ulcers. This makes it easier for you to go about your daily activities. Continue using it as advised by the doctor to get maximum benefit.

SIDE EFFECTS OF HYDROBENZ MOUTH WASH

Most side effects do not require any medical attention and disappear as your body adjusts to the medicine. Consult your doctor if they persist or if you're worried about them

Common side effects of Garbenz

·No common side effects seen

HOW TO USE HYDROBENZ MOUTH WASH

Check the label before use. Take the mouthwash in the quantity as advised by your doctor and put it in your mouth. Swish for 30 seconds to 1 minute and spit it. Do not swallow. Avoid eating, drinking, or smoking for at least 30 minutes after rinsing.

HOW HYDROBENZ MOUTH WASH WORKS

Hydrobenz Mouth Wash Honey is a non-steroidal anti-inflammatory drug (NSAID). It works by blocking the release of certain chemical messengers that cause pain and inflammation (redness and swelling) in the mouth.
