

L-VIT-12 INJECTION
Cyanocoabalmin

PRODUCT INTRODUCTION

L Vit 12 Injection is used to treat vitamin B12 deficiency, anaemia and a painful nerve disease called peripheral neuropathy. It contains mecobalamin or methylcobalamin also known as vitamin B12. It

helps in red blood cell formation, cell metabolism, nerve function and the production of DNA. This medicine will be given in the hospital by your doctor or nurse as an injection. Do not self-inject it. Inform your doctor if you are pregnant, planning a pregnancy or breastfeeding and about all the medicines and supplements you take and all the conditions or diseases you suffer from, before starting L Vit 12 Injection.
