PRODUCT INTRODUCTION

Povidone 2% Gargle and Mouthwash is an antiseptic and disinfectant agent that is used as a mouthwash to kill germs that cause infections of the mouth. It also relieves dryness of the mouth and sore throat.

USES OF POVI RANGE GARGLE

- Treatment of Sore throat**
 - Treatment of Mouth infection**
 - Treatment and prevention of Wound infection**
 - Treatment of Dry mouth**
-

BENEFITS OF POVI RANGE GARGLE

Sore throat refers to pain and discomfort in the throat that is usually seen in bacterial or viral infections. Povidone 2% Gargle and Mouthwash is generally very safe, works quite quickly and will reduce the pain and discomfort that might be caused by sore throat. It kills the microorganisms causing the infection in the throat and makes you feel better. This helps to soothe the irritated throat and speeds up the recovery process. You may also drink warm water/drinks such as ginger tea, avoid cold foods and take a steam bath for additional relief.

SIDE EFFECTS OF POVI RANGE GARGLE

Most side effects do not require any medical attention and disappear as your body adjusts to the medicine. Consult your doctor if they persist or if you're worried about them

Common side effects of Povinz

- Application site reactions (burning, irritation, itching and redness)

HOW TO USE POVI RANGE GARGLE

This medicine is for external use only. Use this medicine in the dose and duration as advised by your doctor. Do not dilute the solution. Gargle in the mouth for at least 30 seconds and spit after use.

HOW POVI RANGE GARGLE WORKS
